c) Either party where one party believes the other party has not complied with the MOU and negotiation fails to rectify the matter within a reasonable time.

AND WHEREAS in establishing this Memorandum of Understanding (MOU) the parties confirm that they are of similar spirit, have common goals and expect there will be mutual benefit from their separate yet supporting activities.

AND WHEREAS each party recognizes that this MOU may create in one party an expectation that results in an obligation for the other party but notes that the intent of each clause or section is to set out the starting point for future relationship building and the determination of clarity and congruence of purpose.

NOW, THEREFORE, NOTWITHSTANDING AND IN SUPERSESION OF ALL THE PREVIOUS AGREEMENTS, ARRANGEMENTS, UNDERSTANDINGS, ASSURANCES, REPRESENTATIONS, ETC. MADE BY THE PARTIES TO EACH OTHER, THIS MEMORUNDUM OF UNDERSTANDING RECORDS THE TERMS AND CONDITIONS WHICH HAVE BEEN AGREED TO BY BOTH THE PARTIES AS UNDER: -

1. FIELD OF COOPERATION

Both the institutions shall evolve a mutually acceptable schedule to conduct / organize the meets to have the benefits of the stake holders.

ROLES AND RESPONSIBILITIES OF PARTNERS

“Greenex Environmental, T-71-1A/2, Telco road General block, Near Indrayani Corner, Above HDFC Bank MIDC, Bhosari, Pune – 411026” as a Partner plays a key role in the entire process of the activity throughout the year. Their primary responsibilities are as follows:

1. Conduction of Training

- Conduct the training as hands on experience in the specialized field of the institution along with the experts in that domain.
- Should identify minimum 2 to 3 groups of students based on the mock test conducted and review the feasibility to provide industrial level training on site for about two or more weeks-based nature of work.
- Hands on experience to the selected students with min. 02 weeks or more weeks.

2. Allocation of the projects to the students

- One to two industrial application-oriented projects shall be made available to the students.
- Depending on the personal level interview technical support shall be given for the development of projects. The appropriate guidance shall be provided for this. The selection of the project should enable the students to participate in various project-based competitions to prove their knowledge.
- Review recruitment clause if candidates found suitable.

3. Experts talk & Lectures series.

- In view of development of students conceptual understanding & practical approach to see the real-world application, the guidance in the form of motivational talk shall be provided from the institute.
- Guidance of appearing in the group discussion to express the thought, skills effectively.

4. Summer / Winter Internship

- There shall be an internship to be provided based on the application & domain.
- During the internship, the students should be motivated to work on the platform to application under the expert's supervision.
- There should be a brief presentation expected from the student to test his/ her understanding about the work.

5. Participation in curriculum enrichment

- In view of autonomy, industry shall be involved in the process of designing the syllabus of various subjects in the curriculum that will suite with the industry requirements.
- Also, there shall be involvement by the experts to give the valuable feedback on designing the experimentation techniques to emphasize more practical knowledge to the students.

6. Active participation in the college activities like project Competitions, alumni meet, internal assessments (OR / presentation) Competition

- The institute should take active participation in the inter institute/ intrainstitute level activity like project competition, paper presentation contest & internal assessment like oral or presentation.
- The students shall get the feel of tough evaluation process & a fair judgment. The expert's guidance shall also motivate the students in that way.
- Conduction of Green, Water, Environmental, & Waste Management audits

FINANCIAL IMPLICATIONS:

It will be mutually decided by both the parties on time to time.

Roles and Responsibilities of Dayanand Science College, Barshi Rd, Prakash Nagar, Latur, Maharashtra-413531

1. Counseling session to the Students/ Faculty.

- The institute will review the feasibility to provide training to the Students/Faculty.

2. Technical training

- Dayanand Science College will assist in conducting training sessions in industry, Students & faculties will be spared for the training at the institute premises.
- Conduct the training as hands on experience in the specialized field of the institution along with the experts in that domain.

3. Experts talk & Lectures series

- In view of development of students conceptual understanding & practical approach to see the real-world application, the guidance in the form of motivational talk shall be provided from the institute.
- Guidance of appearing in the group discussion to express the thought, skills effectively.

4. Participation in curriculum enrichment

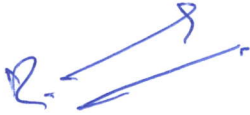

- In view of autonomy, industry shall be involved in the process of designing the syllabus of various subjects in the curriculum that will suite with the industry requirements.
- Also, there shall be involvement by the experts to give the valuable feedback on designing the experimentation techniques to emphasize more practical knowledge to the students.

5. Active participation in the college activities like project Competitions, alumni meet, internal assessments (OR / presentation) Competition

- The institute should take active participation in the inter institute/ intra institute level activity like project competition, paper presentation contest & internal assessment like oral or presentation.
- The students shall get the feel of tough evaluation process & a fair judgment. The expert's guidance shall also motivate the students in that way.

We, the undersigned have read and agree with this MOU. Further, we have reviewed the proposed project and approve it.
