#### Power point presentation Competition on the occasion of Birth Anniversary of "Susumu Tonegawa"

Power point presentation Competition on the occasion of Birth Anniversary of "Susumu Tonegawa" on dated 5<sup>th</sup> September, 2022. Susumu Tonegawa, is a Japanese scientist who was the sole recipient of the Nobel Prize for Physiology or Medicine in 1987 for his discovery of V(D)J recombination, the genetic mechanism which produces antibody diversity. Although he won the Nobel Prize for his work in immunology, Tonegawa is a molecular biologist by training and he again changed fields following his Nobel Prize win; he now studies neuroscience, examining the molecular, cellular and neuronal basis of memory formation and retrieval.

PPT competition have been conducted on offline platform. The Flyer of competition was circulated among students groups and research scholars groups of other institutes on the same day of birth anniversary of scientist "Susumu Tonegawa".

The main aim of the PPT competition was to motivate students and develop a positive attitude towards the scientific innovations in medical biotechnology and their contribution in society.

The objective of this event to impart practical skills that will enable to design project and scientific intelligence as well as resilience to build scientific support through education system and inspiring students further to create awareness in field of biotechnology.
