Quiz Competition on the occasion of Birth Anniversary of "Thomas Hunt Morgan"

Date: - 25thSeptember22

Quiz Competition on the occasion of Birth Anniversary of "Thomas Hunt Morgan" on dated 25thSeptember, 2022. Thomas Hunt Morgan was born on September 25, 1866, at Lexington, Kentucky, U.S.A. He was the eldest son of Charlton Hunt Morgan. He was educated at the University of Kentucky, where he took his B.S. degree in 1886, subsequently doing postgraduate work at Johns Hopkins University, where he studied morphology with W. K. Brooks, and physiology with H. Newell Martin. Morgan was a many-sided character who was, as a student, critical and independent. His early published work showed him to be critical of Mendelian conceptions of heredity, and in 1905 he challenged the assumption then current that the germ cells are pure and uncrossed and, like Bateson was sceptical of the view that species arise by natural selection. He said, in 1909 he began the work on the fruitfly *Drosophila melanogaster* with which his name will always be associated. Quiz competition have been conducted online using google form.

The main aim of the quiz competition was to motivate students and develops a positive attitude towards the scientific innovations in biotechnology and their contribution in society.

The objective of quiz event to impart practical skills that will enable to design project and scientific intelligence as well as resilience to build scientific support through education system and inspiring students further to create awareness in field of biotechnology.
