7. Purpose / aim / objective and outcome of the event:
  - **The main aim of Two Days National Webinar was to give the Recent Advances occurring in Microbiology, to face the most current Pandemic& life threatening situation caused by Microorganisms. Advanced techniques used for creating most applicative microbes having role in various fields of science, such as Agriculture, Pharmaceutical industry, Medical field, Food & Dairy, Environmental microbiology etc. which will provide more knowledge and technology in treating diseases & providing better quality food ,Clean air, Good environment. The program provides expertise Knowledge in the essential multi-disciplinary fields of Nanotechnology, Virology, Medical Microbiology, Industrial Microbiology, discovery of new drugs and vaccines, molecular diagnostic kits, agro-biotechnology that comprise the core of Advances in Microbiology. Topics of this webinar include, Microbes in Current Scenario, Nanotechnology in Microbiology, Role of Microbes in Agriculture, and Overview of Immune response to SARS-COV-2, Exploring Microbial Interactions, & Microbial Surfactants: Multifunctional Biomolecules. Emphasis will be put on the understanding and exploring these concepts. The objective is to help the students to choose their carrier in Microbiology and able to increase their interest in Research to solve the problems on human health & other applicative areas.**
