Special Day Celebration

Organized by the Department Biotechnology

Food Fiesta Competition on the occasion of “**National Nutrition Week-2023**”

The event supported by Department of Biotechnology (DBT), DSCL as part innovative activity. National Nutrition Week is celebrated annually from 1st to 7th September. The main aim of National Nutrition Week is to spread awareness on the importance of nutrition and a healthy diet for the body. Theme is ‘**Healthy diet – Affordable for All**’, to motivate people to have a healthy lifestyle while enjoying the flavors’ of food.

Aim & Objectives

The main aim of the *Competition* was to increase the awareness about the Importance of Healthy Food, eating a healthy diet is all about feeling great, having more energy, improving your health, and boosting your mood. Healthy food improves the immune system, preventing you from falling sick easily. A strong immunity fights against all disease-bearing bacteria. A well-balanced diet provides you with energy and the nutrients you need for growth and repair, helping you to stay strong and healthy

The purpose of this week is to raise awareness among the general public about the value of healthy eating practices and proper nutrition for upholding a healthy lifestyle so food stalls were kept open to all visitors and students at Dayanand campus.

The main subject of Hon. Dr. J. S. Dargad’s talk was on a nutritious diet protects one from chronic illness and leads them towards a happy and long life. The basic structure of protein is a chain of amino acids. You need protein in your diet to help your body repair cells and make new ones. Protein is also important for growth and development in children and teens. He gave the message that nutrition is not just about eating, it is about eating right and wishing you a future bright so eat more fruits and vegetables every day and be focused on good nutritious healthy food for healthy body, mind and lifestyle.

Jury panel appreciated efforts taken by students to create awareness through posters along with serving nutritional healthy food. Also said the doctors of the future will no longer treat the human frame with drugs, but rather will cure and prevent disease with nutrition.
