## Background

Dayanand Science College, Latur, under the Department of Computer Science, organized a Robotics Workshop starting from 25th August 2025. The workshop aimed to introduce students to the fundamentals of robotics using Arduino Uno robots, providing them with hands-on experience in building and programming robotic systems. A total of 78 enthusiastic students participated in this event, guided by the resource person Mr. P.G. Musmade. The workshop was coordinated by Mr. D.R. Dhumal and conducted under the leadership and support of the HOD, Dr. R.B. Shinde, and the Principal, Dr. S.S. Bellale. This workshop was designed to enhance students' technical skills, stimulate interest in automation technologies, and prepare them for future innovations in the rapidly growing field of robotics.

## The proposed results were:

- Students/Participants build different types of robots, such as manual remote-control robots, sensor-based robots, and obstacle-avoiding robots
- The proposed results were enhanced practical skills in robotics, improved understanding of automation technologies, and increased student engagement in STEM fields.

## Participants

- The 77 students were present from B. Sc. (CS) I & II for Robotics Workshop.

## Inauguration and Plenary Presentations

- NIL

## Outcomes of this Competition

**Report**  
**on**  
**25 Days Workshop on Robotics using Arduino Uno**

The Department of Computer Science, Dayanand Science College, Latur organized a *Robotics Workshop* starting from **25th August 2025**. The workshop was conducted using the online–offline practical mode with Arduino Uno–based robots. The Resource Person for this workshop was **Mr. P. G. Musmade**, who explained the fundamentals of robotics, robot construction, and programming. He introduced students to different types of robotic systems, including manual remote-control robots, sensor-based robots, and obstacle-avoiding robots, and discussed their practical applications.

Mr. Musmade aimed to prepare students for future innovation by providing insights into automation technologies and hands-on experience in robotics. The session covered both the assembly and programming of robots, helping students strengthen their technical foundation. The interactive learning environment encouraged students to ask questions, experiment with components, and actively engage in problem-solving activities throughout the workshop.

For this workshop, **Principal Dr. S. S. Bellale**, **HOD of Computer Science Dr. R. B. Shinde**, and **Coordinator Mr. D. R. Dhumal** were present and provided valuable support. A total of **77 students from B.Sc. (CS) I & II** attended the workshop with great enthusiasm. The workshop helped participants enhance their practical skills, build confidence in robotics, and develop interest in STEM and automation fields.

Anchoring was done by the organizing team, and the workshop concluded successfully with positive feedback from the participants.
