**Event: “Street Play on Environmental Awareness”**

<b>Sr. No</b>	<b>Title</b>	<b>Information</b>
1.	Name of Department	Science Association 2025-26
2.	Title of Event	Street Play on Environmental Awareness
3.	Date or Duration	18 January, 2026
4.	Venue of the Event	NSS Camp at Dautpur, Tal. Ausa Dist. Latur
5.	Sponsor/Collaboration	-
6.	Level of Event	College
7.	Aims/Objectives of the Event	<ul style="list-style-type: none"><li>• Creating a sustainable, healthy, and balanced ecosystem for current and future generations.</li><li>• To educate people about environmental issues like reducing pollution, waste, and harmful impacts through knowledge, changed attitudes and active participation of saving trees etc.</li></ul>
8.	Beneficiaries/Participants	Students and Village people of Dautpur.
9.	Number of Participants for performing street play	09
10.	Name of Chief Guest, Speakers	-
11.	Name of Coordinator	Mr. S. B. Gavit ( Asst. Professor DSC, Latur)
12.	Portfolio Members	Dr. D. D. Dhere, Dr. S.D. Lokhande, Miss. Pooja Nandgave, Miss. Aishwarya Andhare etc.
13.	Photographs/Evidence Produced	<ul style="list-style-type: none"><li>• Attached Photographs of the event</li><li>• Attendance of Participants for performing street play</li><li>• News Paper cuttings</li></ul>
14.	Outcomes of the Event	1. People adopt eco-friendly habits such as recycling; conserving water and energy, and reducing waste & reduced pollution and cleaner environments lead to better physical and mental health.
15.	Any other information	-

## Background

The **Science Association** is a group formed in colleges to promote interest and awareness in science among students. It encourages students to develop scientific thinking, curiosity, and practical knowledge beyond classroom learning. The association organizes various activities such as science exhibitions, seminars, workshops, quizzes, experiments, and awareness programs on important topics like environmental protection, health, and technology. Through these activities, students get an opportunity to explore scientific ideas, improve their creativity, and understand the role of science in everyday life. Overall, the Science Association helps students build knowledge, teamwork, and problem-solving skills while promoting the importance of science for the development of society.

## About activity

A street play on environmental awareness is an effective activity used to educate people about the importance of protecting nature and maintaining a healthy environment. In today's world, rapid development, urbanization, and industrial growth have led to problems such as deforestation, plastic pollution, and climate change. Trees play a vital role in maintaining ecological balance by providing oxygen, improving air quality, and supporting biodiversity, yet they are being cut down for development projects. Farmers are also directly affected by environmental changes such as irregular rainfall, soil degradation, and water shortages, which impact agriculture and food production. At the same time, entrepreneurs and businesses have an important role in promoting sustainable development by creating eco-friendly products, encouraging recycling, and reducing waste. One of the major environmental issues highlighted is the excessive use of plastic, which pollutes land and water and harms animals and humans. Through this street play, the aim is to spread awareness among people about the need to plant more trees, reduce plastic use, support farmers, and adopt sustainable practices so that development and environmental protection can go hand in hand.
